

Northeast Veteran's Training & Rehabilitation Center

Approaching sustainability from all angles

A Panel Discussion including Veteran Homestead's Vision
The Architect & Engineers' Design Process
& The Contractor's Implementation

Mount Wachusett Community College

Gardner, Massachusetts

April 15th, 6:00pm to 8:30pm

Room 125

This collaborative project between Veteran Homestead, Inc. and Mount Wachusett Community College will provide a green, healthy, restorative environment for veterans returning from Iraq & Afghanistan. The project consists of a 6000 SF Therapy Building with a therapy pool, massage, physical therapy rooms and meeting spaces, as well as 10 residential duplexes for veterans & their families. This complex anticipates achieving LEED Gold Status from the US Green Building Council.
